

DATA SHEET

# QC Cell Banking for Analytical Assays

AVAILABLE AT:

[www.breakthroughmedicines.com](http://www.breakthroughmedicines.com)  
[www.skpharmteco.com](http://www.skpharmteco.com)

## CURRENT OFFERINGS

- Preparation of QC as well as GMP (non-manufacturing) Cell Banks for Mammalian, Avian and Insect cell cultures in dedicated incubators
- Significant experience working with different cells lines – suspension, adherent and biphasic
- Preparation of any size banks small or large (from 10-25 vials to 300 vials+) utilizing either Control Rate freezers or CoolCell™ freeze containers
- Viability and recovery testing of cells post freeze (included with cell bank preparation)
- Multiple cell banks can be prepared simultaneously

## KEY DIFFERENTIATORS

- No wait times to start production of cell banks
- Fast turnaround times
- Cell banking management access for critical cell banks
- Ongoing notifications on every cell banking event (thawing, subpass or harvest).
- Quick site-to-site shipment arrangements

## STATE-OF-THE-ART EQUIPMENT
